Project Architects (Private) Melbourne 2003-04
Travelling and exploring European Architecture whilst residing in the UK 2005-06

Synopsis

Peter is also a registered Building Practitioner with over 25 years professional design experience. He obtained his Associate Diploma of Architectural Technology at RMIT University, Melbourne.

Peter was fortunate to work for seven years with the prestigious multi disciplining Melbourne firm Bate Smart Architects, working on design and refurbishment projects including the \$4M refurbishment of the Old Treasury Building Project amongst others. He gained extensive experience in variety of projects including Health, Commercial, Educational and Institutional developments.

As a Technical design specialist at Span Architects, Peter worked for three years specialising in multi high-rise apartments including the \$1B Victoria Tower apartments.

The inspiration for creating Peter Searle Design came in 2006 after two years studying the architecture in London and other major European cities.
